

Kitchen Mart

The Heart and Soul of a Home

If the kitchen is the heart, the master bathroom is the soul. The master bath is the where you are refreshed and rejuvenated. It's where you wash off your troubles and remember that tomorrow is a new day. It's where you have time however little — to yourself. And it is where your husband does most of his reading. In a busy household, the master bath is a pocket of peace.

Of all the rooms in a home, these two are uniquely life-giving and life-restoring. It makes sense to invest in the way that they look, feel and function. And it makes sense to work with a remodeler you can trust.

Kitchen Mart, Inc is a locally owned and operated kitchen and bathroom remodeling company with a well-earned reputation for quality, design, craftsmanship and professional service. Serving the greater Sacramento since 1976, they have

transformed the heart and soul of literally thousands of area homes and have satisfied an equal number of customers. More than three-quarters of their business comes from referrals and repeat business.

Kitchen Mart's remodeling capabilities go from re-facing to complete renovation, making them

uniquely able to provide the look, feel and function you want with your budget in mind. Whether the project is large or small, Kitchen Mart is so confident that their pricing is competitive that they encourage you to shop around. In an apples-to-apples comparison, you won't find a better deal.

You won't find a better value, either. Kitchen Mart is a general contractor (GC), so they are able to deliver a full range of services. They handle design, custom cabinetry, plumbing, electrical, lighting, flooring and more. And they do it all with aplomb. With more than 30 years of experience under their belts, their

depth of product knowledge and level of craftsmanship is unsurpassed. Kitchen Mart kitchens and baths are designed and built to last.

As a GC, Kitchen Mart takes the headache out of remodeling. You don't have to babysit multiple contactors and schedules because Kitchen Mart does it all. They manage the process, the project and the schedule for you. And they are committed to making the construction phase as convenient and hassle-free as possible.

Sanity in the midst of the project is good. Sanity at the end of the project is better. And here, again, Kitchen Mart's breadth of services and depth of skill is important. Because they are in control from start to finish, they take complete responsibility for your satisfaction. In fact, they guarantee it.

When you invest in the heart and soul of your home, you are also investing in your family's future. Real estate experts continue to report that homebuyers look specifically for updated kitchens and master baths. A fully completed kitchen can return as much as 100% on your original investment when you sell. A master bath can return 80-90%. When you contract with Kitchen Mart, you know that your kitchen or bath is safe—your investment is safe—in Kitchen Mart's able hands.
